INDEX TO VOLUME X.

AGRICULTURAL.

A

Acknowledgements of fruit, &c. 119, 266, 271, 284, 294, 298, 343, 344, 350, 366, 384, 392, 399, 478, 494.
Acclimation of fig tree, 4.
Agriculture, 17; dignity of, 57; rigid rules, 136; influence on health, 161; Chinese 249, its bearing on medicine, 281.
Agricultural schools, 65.
—— science, 1, 9, 17, 34, 41, 49, 58, 65, 73, 89, 97, 113.
—— addresses, Dr Emerson's Phila. 346; Dr Farrar's 3-9.
—— experiments with turnips, 25; Furnace, 36; Societies 126; Maryland State Society, 350; publications, 384; capital, 394.
—— meetings at the State House, 25, 34, 41, 50, 58, 66, 74, 82, 90, 98, 106, 114, 122, 130.
Air, influence on the health of animals, 304; fresh, 290.
Allen's, book on domestic animals, 352.
Ancestors, real life, 247.
Ammonia, 178, 154.
Analyzing soils, 130.
Animal physiology, 248.
—— killing in the night, 220; food for working, 321.
Ants on peach trees, 238; and aphides, 206.
Apples, 26; trees, bearing year, 47; Oak's Apple, 49; from Ellwanger & Barry, Rochester, N. Y., red Canada, Peck's pleasant, northern Spy, Detroit, Esopus Spitzenburg, Swaar, Bake, Yellow Bellflower, Ribstone Pippin, Newton Pippin; Patterson's sweet, 90; Ounce, 97; from Vt. 58; Esopus Spitzenberg, 65; Hurlburt, 66; Oake, 66; N H, 82; Yellow Bellflower, 89, 90; Baldwin, 145; Northern Spy, 153; Tucker, 238; Early Harvest, 260; Williams, 289; Minister, 294; Red Astrachan, 309; Porter, 345; large, 350; Gravenstein, 365; changing bearing years, 394; Liscom Apple, 401; Wine, 402.
—— blossoms, 161; productive, 225; tree blight, 234; early ripening, 298; crop, 350.
Asphalte felting for roofs, 65, 145, 194.
Ashes, as manure, 349; leached, 258; wood and hard coal ashes, difference in, 402.
Asparagus, 149.

B

Baldwin apple, origin of, 173.
Beans, 130.
Beef, to keep fresh, 178.
Beets, for winter, 170.
Bees, 63, management of, 81, 89, 145; hive, 154; fighting, to stop, 177; artificial swarming, 193, 153; breeding, 198; method of hunting wild, 305.
Beer, best kind, 209.
Birds, a word about, 138; looking glass for, 154; to keep from fruit, 217.
Blackberry, culture of, 242.
Blight in fruit trees, 149; sunblight, 194; in apple trees, 282, 336.
Bone manure, 194; disorder, 117; for hens, 241; bones and sulphuric acid, 358, 402; dissolving, 408.
—— and sulphuric acid, 10, 18, 153.
Briars vs. Sheep, 25.
Breeding, principles of, 361.
Buck wheat, 186.
Budding late, 294; fruit trees, 402.
Building material indurated, 265.
Buffalo berry, or Shepardia, 95.
Bugs, to rid house of, 318; on vines, 226.
Burns, cold water for, 144.
Butter, yield of, 81; machine, 185; washing and saltpetre, 113; preserving, 321, 345; to make in the winter, 361.
Buttons mold factory, Brighton, 170.

C

Cat, hage, cultivation of, 122; Turnip, 130, 194; burying loose Cabbage, 378.
Calves, Devonshire Bull for sale, 394, 402.
Cattle, age of, by teeth and horns, 26; Durham, 90; Devon, 130, 134; fattening, 193; selling, 202; rearing, 225; shows, 236; Devon, 317; West-Highland, 340.
Cattle shows, Essex, 322; Middlesex, 322; New York State, 339; Sturbridge show, 358; County shows, 344.
Caterpillars, 73, 170.
Candles, art of dipping, 394.
Canker worms, to stop, 41.
Carrot crop, 137, 146, 153; early horn, 170.
Carbonic acid, 81.
Charcoal, 18; improved method of making, 250.
Cheese, Stilton, 241.
Cherry, wild black, 186; Shurtleff's May Duke, 210; Downer's late, 217; black Eagle, 226; from O. Johnson, Lynn, 234; late 234; early Honey, 258, Cherry leaf poisonous to cattle, 266.
Cheeses, large, 394.
Chesnuts, 201.
Chloroform applied to a pig, 153, 353.
Clover seed, to save, 305.
Churn, atmospheric, 298, 345, 346; thermometric, 354; atmospheric, 354; combination butter churn, 393, 401; thermometric, 409.
Climate, 265; of Europe and America, 281.
Coal, mineral, 265; volcanic, 394, 410.
Cockroaches, to destroy, 217.
Coffee, to make good, 297.
Colman's Report, European agriculture, 386, 402.
Color, yellow on vegetation, 146.
Colts, to raise colts, 202.
Composts, 177.
Combustion, spontaneous, 409.
Corn cobs, 1, 9; bins, 10; Indian, 88, 90, 97, 105, 122; pop, 120; for fodder, 178; Chinese, 186; topping, 245, 258; composition of, 290; filling, 282; cultivation of, 386.
Cottage, ornamental, 185, 328.
Correspondents, to, 330.
Cowberry, 34.
Cow, old Ayrshire, 41; prolific, 169; good vs. bad, 242; Guenon's treatise on, 257; milch cow, proper points of, 289; good vs poor, 321; dairy, 338; French method of judging the dairy cow, 409.
Cranberries, upland, 2, 218; culture of, 249; upland, 337.
Crops, rotation, 10; thick sowing, 30; mixing crops, 265; present year, 333; green crops, 90; mixed, 97; green, 226; average of, 386; comparative value of feeding stock, 402, 410; cultivation thorough, 258; deep, 385.
Curculio, 178.
Currants, grafting, 177; preserving, 218.
J P Cushing's farm, 266.

D

Dairy, substitute for, 250.
Dock, plain, 41.
Disinfecting fluid, 25; copperas, 137.
Divining rod, 401.
Dog, Scotch sheep, 97; to protect small against large, 114.
Door ballance, 290.
Dorking fowls, 130.
Drainage, 137, 149, 234; advantages of, 259.
Drink's harvest, 243.
Dyeing blue, 353.
Dysentery, remedy for, 266.

E

Earth, tilling the, 170.
Education, 10.
Eggs, large, 234; properties of, 321.
Elephant for the plough, 274.
Ergot, 313
Essay, prize by Col. Capron, 361.
Evergreens, transplanting, 26, 169, 370.

F

Fact, 346; in physiology, 401.
Fallowing, 145.
Farm of N. P. Williams & Son, 218, Moses Jones, Brookline, 266.
Farmer, a female, 17; Education of, 105; responsibilities and duties of, 33; American, 362.
Farmers library, 9; in the ascendant, 202; hints to young, 242.
Farm, large vs. small, 366.
Farming, importance of, 82; experiments in, 145; book, 170; essentials to productive 241; farming and reading, 297; Theory of, 393, 401, 410.
Feeding, close, 394.
Fence, picket, 402.
Fertilization, 81, 105.
Fire proof mineral, 242.
Fish, hauling in salt water, 122.
Flax crop, 154; growing, 345.
Flannels, to shrink, 209.
Flies, to destroy, 241.
Flowers, hints to lovers of, 153; cultivation, 218; love of, 330.
Floriculture, 338.
Flour, whole and fine meal, 250.
Foals, 114.
Food of plants, 121, 240, 242; Food, adulteration of, 290, 313.
Forest trees, raising, 2, 114; advantages of, 313.
Fodder, economy in, 10; cut fodder, 290.
Fruit 9, 17; trees, 18; selecting varieties, 81; wash for fruit trees, 153; rare, 162; growing in Maine, 194; prospect of 202; in Maine, 205, 247; dried, 313.
Fruit Growers' Convention, 282; national, 338.
Fruits of America, by C M Hovey, 178.
—— Trees benefitted by phosphate of lime, 225, 322.

G

Gardening. Geology, 378.
Gluten, 137.
Graft, influence of stock on, 338.
Grape vine, insect, 153; layers of, 178; potash proper food for, 178; culture, 217; vines from seed, 322, 345.
—— preserving, 321.
Grass lands, top dressing, 10, 73; effect of mud on, 178; dressing, 290; time of top dressing, 314; manuring, 345; time of cutting, 226; seeding down, 234; seeding on wheat stubble, 386.
Grass-hoppers, 162.
Grass, orchard, 9; Italian rye, 146.
Grain, care of, 18; grain and potatoes, 121; time of cutting, 34.
Grain and seed planter, Smith's, 34; Woodbury's separator, 153, 161.
Granery, rat proof, 202.
Grecian Cottage, 33.
Green crops, 82.
Guano, 90, 137.
Gypsum, 297.

H

Ham, to cook, 202.
Hay, clover, 240; caps, 210, 258; salting, 330.
Hedges, of hemlock, 3 3.
Hens, 1 9; Poland, 266; profits of, 294, 413.
Hogs, large 18; food for, 26; experiment in feeding, 41; large, 50; Berkshire, 57; white Chester county, 121; mucho, 321; large, 394; slaughtering, 394; large, 402
Hops, cultivation of, 385.
Hovey's straw cutter, 1; fruits of America, 2.
Horticulture, influence of, 194.
Horticulturist, 10.
Horticultural, Mass Society's annual exhibition, 314.
Horse, the 138; sound feet in, 209; shoeing, 234; collar improved, 265; heaves in, 297; fact in relation to, 249; influence of kindness, 302, 321; distemper, 385.
Horse and his rider, 169; Horse chesnut as food, 378.
Horse power, Woodbury's, 105; Wheeler's, 137.
Houses of unburnt brick, 122, 145.
Hydraulic ram, 257.
Hymn, to the flowers, 361.

I

Incubation artificial, 137.
Irrigation, 137, 148; in Egypt, 178, 225.
Inventor original, 162.
Invention, cow, 290.
Iron pillars, strength of, 153.
—— malleable, 202.
—— sawing, 225.
—— welding iron, steel, and sheet, 282.

J

Johnston, Otis, garden of, 306.

K

Kidney worm, cure for, 265.
King-bird, 53.
Kyanizing, 286.

L

Land, management of stony, 18; wet, 377.
Lambs rearing for market, 153; weaning, 298.
Leather wood, 250.
Leaves, function of, 370.
Leprosy, to cure, 177.
Lice plant, 290.
Lime for peach trees, 34, 233, 345; phosphate for, 314.
Linen Goods, test for, 274.
Live fences, 250.
Litter for animals, 257.
Lock jaw, 170.
Locust, 202; insect in, 290.
Luck, good and bad, 343.
Lumber and machinery, 297.

M

Machine, American harvesting, 382.
Manuring land, 21 by clover, 10
Manure, 9, 18; compost, 18, 26, 49; application of, 114; fermented, 145; for fruit trees, 170; salting, 153; for fruit trees, 154, 185, 226; preservation of, 249; loss of, 290; soap ns, 298; mud and muck for, 274; law of, 333; economy of saving, 354; fertilizing powers of, 354; fish as, 374; manure produced by crops, 282; sewage, 341; housing, 347, 386; Bommer manure, 122; City manure, N Y, by Wm Patridge, 378.
Maple tree sugar, 49; sugar in Springfield, Mass, 170.
Mangel wurtzel, 146.
Meat, fresh, American in England, 25.
Meat, cooking for hogs, 4 9.
Meadow land, top dressing, 26; ashes for, 249.
Milk maids turned pianists, 161; glass milk pans, 314.
Mud, cultivate, 385.
Moths, to repel, 26; ravages, how to prevent, 210.
Mount Airy Institute, 233

N

Nature, the perfection of, 242.
Natural history, facts in, 242.
New year, 2.
Norman horse, 345.
Nursery, Bryant's East Bridgewater, 258.
Nutrition, inorganic elements of, 281.

O

Oaks, premium for, 210.
Observations, 202.
Oil gland on fowls, 161, 273.
Onions, transplanting, 41, 273.
Orchards, tilled or plowed, 25.
—— 98, 122; old, 170; a thrifty, 210; fine, 298; apple, 393.
Organic matter in soils, 241; and inorganic matter in plants, 377.
Osage Orange, 154.

P

Paint, artificial slate, 225.
Parents, a hint to, 369.
Parsnips, fattening pigs on, 233.
Pasturage, 321.
Patent office Report, 202.
Peas, 130; champion of England, 242.
Pear, Lewis, 17; Echassery, 38; Winter Nellis, 81; Colmar d'Arenberg, 178; iron or black, 274; Bartlett large 306; Andrews, 321; Louise Bonne de Jersey, 369.
—— seedlings, to raise, 10, 42.
—— on thorns, 154.
—— are the old varieties extinct, 193.
—— at Mr Pond's, Cambridgeport, 206.
—— blight, 226, 265.
—— trees, 353; giant one at the West, 378
Peaches on plum stocks, 162; in New England, 178; in Ashland, 194; borer, 241; worm, to guard against, 249; seedlings, to raise, 242; remedy for worm, 298; pickles, 298; early Crawford, 353.
Performance, remarkable, 386.
Pie plant, 2, 26, 378.
Pigs, large, 137.
Plant the best 146; plants selecting their food, 362.
Plaster of Paris, 338.
Plough, Jethro Wood's patent, 30; centre draught, 113; subsoil, 177; rotary mould board, 393.
Ploughing, ridge, 57, 122; subsoil, 210; Maryland ploughing match, 378; matches, 401.
Plums, cherry, 273; purple gage, 313, 154; Washington, 297; stocks, 306.
Potato, 2; potatoes and muck, 10; degeneracy, 18; not a native of Virginia, 29; rot, 41; for planting, 66; disease 82, 90, 98, 122, 137, 194, 218, 225, 250, 273, 274, 283, 306, 322, 338, 370.
—— crop of 1845 '46 and '47, 113, 234.
—— planting, 146, 153; tops and huts, 154; black, 161, 282.
—— manure for, 161; manuring the ground in the fal for, 313.
—— found on the Orizaba mountains, 162; novel experiment with, 178, 247; effects of nipping the tops, 218; culture of, 241, 266; mixing at the root, 242, 282; wild, 289; digging, 290, 305; potato problem, 314; rohan, 314; potatoes vs corn 369.
Poll evil, 234.
Pomological, 234; convention at Buffalo, 330 337, 346, 353.
Pork, how much will a bushel of corn make, 33; pork itch, 170.
Posts, preservation of, 194.
Potash from the mountains, 313; revivification, 385; again 394.
Poultry, rearing, 177; diseases of, 241; and eggs, 218, best food for, 290; Lord Carrylin's house, 337; and eggs, 354; report on, 362.
Prouty & Co's plough factory, 138.
Provender for stock, 410.
Pruning trees, 226, 266.

Q

Quantity vs Quality, 1, 49.

R

Rake, loading, 146; drag rake, 273.
Raspberry Franconia, 241.
Rats, to drive away, 10.
Rattle snake, bite of, 18.
Receipts for housewives, 154.
Rice to cook, 177.
Rocks and stones, effects of on land, 298.
Roller, friction for grindstones, 370.
Roofs, building, 98.
Root culture, 186.
Rose bug, 285, 306.
Rotation, 82.
Rose trees, trailing of, 338.
Rural architecture 129; scenery, 177.
Ruts bags, large, 345.
Rye, multicole, 178, 274, 323; cultivation of, 273.

S

Sap, circulation of, 146; rising, 170
Salt, use of 193; for plum trees, 332; salting stock, 298, 402, 4 9, 410.
Saw dust, 122.
Scare crows, 177.
Science for farmers, 337.
Scientific notices, 57.
Scions, set to, 202.
Season, retrospect of, 337, notice of, 346; peculiar effects of, 113.
Seed, selection, 17; collecting choice, 18; change of, 73; steep for, 114; vitality of, 338; clover seed to save, 265
Seeds of forest trees to plant, 97.
Seeding, 186.
Sewarage, 225
Silk artificial, 177.
Shagbarks insect on, 226.
Shelter for stock, 410.
Sheep, south down, 9; vs briars, 25, 82, stretches, 114, 129; husbandry, 138; for mutton, 154; New Oxfordshire, 169; Cheviot buck, 281; importation of pure breed, 282; Cheviot, 314; saxon and merino, 314; Dighly, 330; Dorset breed, 345; south down, 346; small pox in, 401; Canfield's treatise on the sheep, 410.
Shingle manufactory, 194.
Shoes, composition for, 18.
Soil, stirring 161; improvement, 201; mixing, 225; improving sandy, 297.
Soiling cattle, 202.
Spuding, 50.
Speech, profitable one, 250.
Spirits of turpentine, cure for poison, 177.
Squashes, 122.
Stables, damp, 353
Stafford's patent dryer, 17.
Stetson's, Nahum, garden, 226.
Straw, raw, rye, for fodder, 90
Strawberries, productive, 177; report on, 194; flowers, 209, Richardson's seedlings, 234, 273.
Stoves to polish, 4 9.
Stock, exposure of, 361.
Sulphuric acid and bones, 10; for turneps, 18.
Subsoils poisonous, 344.
Suckling, period of, 289; proper period, 330, 337.
Sugar, maple, 50; manufacture, 74, 98; statistics, 186; at the south, 234.
Swine, salt for, 202.

T

Tares, winter and summer, 402; culture, 402.
Tan bark, 314.
Tea to detect copper in, 42.
Technicalities, 314.
Tillage, deep, 57, 89, 130, 329.
Timber, proper time for cutting, 18.
Tobacco cultivation, 25
Tomatoes, affects of 194.
Tree, miscellaneous, 177.
Trees, 2; mending a tree, 10; transplanting, 114, 170; from the north, 282; twist in, 329; care of, 226; transplanted 242; most effected by lightning, 234; planting of forest, 289, planting out, 354; large to transplant, 321; transplanting, 362.
Turpentine trees dying out, 162.
Turneps, the whole year round, 2 2; tate, 234; fattening stock on, 332.

U

Utensils, culinary, choice of, 273.

V

Valedictory, by S. W. Cole, 322.
Vegetables, to raise in old garden soil, 162; to enlarge, 257.
Vegetation, effect of air and water on, 322, 362; necessity of light for, 402.
Ventilation in buildings 241.
Vermont, products of, 81.

W

Wasp, the potter, 225.
Water for stock, 26; pure and led pipe, 169; rain and snow fertilizing properties of 185; hot for trees, 225; as a beverage, 258; in barnyards, 265; peculiar effect of stagnant on vegetation, 306.
Weavil in wheat, 297.
Weather and crops, 9; observations on, 273, 284; cold at the west, 378.
Weeding, early, 161.
Weeds, to destroy, 274, 298.
Western agriculture, 1.
Wet lands, to improve, 18.
White wash for fences, 313.
Wheat, 2; lining and brining seed, 33, 106; foreign market for surplus, 178; wheat after wheat, 194; fly, 218; manure for, 249; sowing early, 306; converting it from an annual to perennial, 345.
Wheelers horse power, 137.
Willows, destroying, 161.
Wilson the ornithologist, 250.
Wire-worm, remedy for, 202, 282; cobs a remedy for, 290.
Wire fences, 274.
Wood lots, 370; and timber lands, 392.
Wool, 129; for sacking, 153; depot for, 178; increased demand for, 185; trade in Michigan, 218; softness and fineness of, 218; dont raise enough, 233; in Michigan, 250.
Wool growers, 186.
Worcester cattle show, 314.
Worms, kidney, in swine, 186, 210.

Y

Year, the 1848, 353; 1849, 369,
Yeast, German, 162.
Yellows in peach trees, 234.

ARTS AND SCIENCES.

A

Annunciator, self acting, 232
Arms, artificial, 64; arms and hands, improved artificial, 209
Asphalte felt for roofing, 144
Axletree, the ball, 422

B

Bedsteads, improvements in, 72
Blow-pipe improvement in, 96
Bombs, fulminating, 48
Boots, new machine for pegging, 416
Bricks, new invention for making, 48; chronological, 168; new machine, 176 184; wetting, 208
Broom corn superseded, 224
Buckle, new machine, 72
Bumford's new improved stocking frame, 368
Bushnel's hot air furnace, 344

C

Cannon, new, 168
Carriage springs improvement, 240
Candle, new machine, 40
Carding machine, new, 216, 273
Carpet loom, new, 186
Clock, alarm, 248; fan, 320 curious, 392
Chimnies, to prevent fire in, 128, 289
Coffee pot, new, 336
Coffin, air tight, 48
Cordage, silken, 88
Counting machine, 248

D

Diving bell, new, 240, 256.

E

Edge tools, 128
Electricity, curious use of, 24
Engine, monster, 120
Engraving, reproducing, 88; new mode of, 128; new method, 336

F

Fiddles, improvement in, 136
File cutting improvement, 16
Firelock, self priming, 368
Fog alarm bell, 304

G

Gas, natural jets, 88
—— light monitor, 422
Gunners, a fact for, 176
Gutta percha, 24; more about, 56.

H

Harness, improvement in, 3 4
Heel, new boot, 368
Houses, to purchasers of, 88

I

Improvement in printing yarn, 344
India rubber, 40; for railroad springs, 96, 208
Invention, modern, 80; important, 96, 344; wonderful, 176; new, 216, 232; great, 272; simple, 256; nautical, 256; another, 280, 336, 354; novel, 344; great, 4 0
Iron, 144; method of silvering, 152; distinguishing iron from steel, 216.

K

Killing made easy; 272

L

Lead, white, a substitute for, 136
Life preserver, new 360,
Lock, improved safety, 72
Locomotive manufactory, 224
—— large, 264; for inclines, 280; improved, 360
Locomotion, 152
Looking glass, new, 176
Lung protector, 272

M

Machine for sewing, 336, 368
—— for ruling paper, 336; new last, 336; for garlic and smut, 344; new boring machine, 352; pill, 368; nabranning, 280
Mechanical power, new, 184
Mettle, yellow for sheathing, 232
Milk pans, glass, 8
Mill for sawing, 96
Mineral fire proof paint, 328
Mop handles, new, 48
Moths, remedy for, 8
Munger's yankee Turbine wheel, 422
Musical instruments, novel, 320

N

Niagara suspension bridge, 120
Needles, manufacture of, 200

O

Oil, mint, 272
Organ pipes, improvement in, 200

P

Pails, improved strainer for, 360
Patent pen holder, 344
Patche's propeller, 360
Parasols, improved, 360
Paving, new, 24
Pavement, the russ, 168
Perspectograph, 384
Piano attachment, 352
Pillars, iron, strength of, 64
Pins, 4 ; making, 272
Planting machine, 272
Prairie car, 3 4
Press, new card, 208; new and powerful, 320
Printing, chemtypic, 64
Pump, new steam, 264; new wheel, 368

R

Railway collision, to prevent, 392
Railroad, cars, for coupling, 64; track, Roger's, 160, switches, 248; improved switch 3 4; new railroad brake, 280; patent signal, 288; improvement in, 296; Seller's heavy grade engine, 3 4; railroad gate, new, 335; signals, 440; new brake 416
Reaping machine, new horse power, 120; Hussy's, 377
Razor, improved, 288
Reed's lightning exhauster, 224
Roofs, covering for, 48

S

Saddle, patent seat, 320
Sawing machine, 144; improvement in, 192; irregular shapes, 238
Saw mill, new principle, 422
Science important to mechanics, 112
Shingle shaving machine, 320
—— machine, Turner's, 264
Shirt collar, patent, 208
Soles, a machine for cutting, 136
Spectacles, galvanic, 200
Stave machine, 288
Steam boiler, rust in, 120; explosion, to prevent, 328
